High Temp Oven Model HT216

Large High Temperature Oven Model #HT216 216 Cubic Ft.

This oven is designed to operate at 1000°F and includes the following special features:

High Temp Oven Specifications:

Inside Dimensions: 72" W x 72" W x 72" H

External Dimensions: 116"W X 96"D X 120"H

Max. Temperature: 1000 Deg. F

UL LISTED CONTROL ENCLOSURE

These Industrial Ovens & Furnaces sets themselves apart from the competition by UL listing every control enclosure on all industrial ovens. Added comfort without the cost!

AIRFLOW

Reduce cold spots and count on even airflow across the chamber. Our Industrial Ovens come with airflow in a variety of selectable patterns.

TEFC CIRCULATION MOTOR

This Design uses Totally Enclosed Fan Cooled (TEFC) motors on all of our industrial ovens. TEFC motors are made for harsh conditions and are built to last.

- UL Listed Control Enclosures
- TEFC motors (Totally Enclosed Fan Cooled) — For harsh environments and long life
- Electronic Temperature Controller & High Limit
- 8" Thick Insulated Walls, Ceiling & Floor With Cart Tracks (If Required)
- 1" Circulation Fan
- Stainless Steel Interior
- 800,000 BTU Burner
- 7000 CFM Exhaust Blower
- Selectable Air Flow Patterns Available: Horizontal, Combination, Compound, Vertical Up or Down
- Painted Exterior
